

Precision Component Parts Manufacturer

**CNC Machined
Parts**

**Screw Machine
Parts**

**From High Pressure Tube Fittings and Connectors to
Precision Shafts and Nozzles, We Specialize in Quality**

- Turning: Bar capacities up to 3-1/4 inches diameter, Chucking up to 10 inches diameter
- Tolerances to the low tenths
- Materials: All basic free machining materials plus alloy steels, stainless steels and exotic materials
- All secondary operations
- Complete engineering services
- ISO 9002 and QS9000 Certified

**2 Plants in NY, 1 in Texas
60,000 square feet total**

Machining Capabilities

- Swiss and CNC Swiss Screw Machines up to 1-3/8 inches diameter
- Multi-Spindle Screw Machines up to 3-1/4 inches diameter
- 5 Axis CNC Turning
- 5 Axis CNC Milling
- Single Spindle Screw Machines up to 2-3/8 inches diameter
- All In-House Tooling

We Serve Customers in the Following Industries...

Automotive and Off-Highway • Plasma Cutting • Adhesive Application Equipment
Medical and Dental • Oil and Gas • Optics • Electronics • Aerospace • Avionics • Appliance
