

- Has your company ever had equipment down, waiting for custom cutting tools?
- Have you considered the time savings form tools can afford on CNC equipment?

We may be able to offer you a solution.

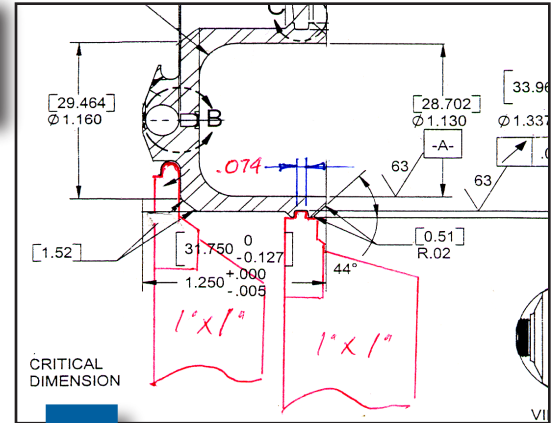

## Custom Cutting Tools Made Specifically for Your Job

- Thuro Metal Products has a **state-of-the-art tool room** staffed with trained, experienced toolmakers.
- We have **36 years of experience** designing and making form tools for screw machines and CNC lathes.
- We have **the latest in Wire EDM and Optical Grinding** technology ready to serve your needs.
- New **flat form tools made from carbide or high speed steel** shipped within a week or less.
- **Repeat orders** ship within two working days.
- Our clientele enjoys **rapid delivery** of quality tooling.
- We can accommodate all sizes of “dovetails” and “stick-type” form tools.
- We also specialize in putting special forms on standard carbide inserts.
- Tools will be marked for easy identification.
- Our prices are competitive.
